**Clinched or practically clinched berth in Final.

*Indicates other team in Final, and winners of Stinker, Canadiana, and Fewest Zeroes prizes, if there were no more games this season.

Unofficial Analysis

- * This analysis was done by a human and is subject to human error.
- * It is assumed that of two teams in contention for the same position, it is inconceivable that one of them will outscore the other in Game 10 by more than 30 points. Inconceivable!
- * Bloor St. Irregulars and Misplaced Modifiers will both be in the Final. One of them will have the Most Points and the other will lead the Torquemada Division when the team with Most Points is excluded.
- * The third berth is the winner of the Jaworski Division. MI5 have the advantage here, but the Usual Suspects can take the berth if:
 - Suspects beat The Others in Game 10
 - AND Artless Dodgers beat MI5 in Game 10
 - AND Suspects, in their game, outscore MI5, in theirs, by 14 or more.
- * If no teams enter or leave the league, the team just described will be promoted to the Torquemada Division, and one team from the Torquemada will be relegated to the Jaworski Division. This could be any of Unnatural Axxx, What She Said, or Toronto Trivia Commission, who happen to be respectively playing the other three Torquemada teams in Game 10. If TTC lose or all three have the same win/loss/tie result, then TTC will be relegated; the other cases are, as they say, left as an exercise for the reader.
